

## **CLEAN UP YOUR PROPERTY SPRING 2021!**

**Spring is upon us and the City of Dryden would like to remind residents to clean up and discard unsightly items accumulated around your property. Take a proactive approach and clean up or clean out the debris and overgrown grass, trees and shrubs.**

**The City of Dryden values all efforts made by property owners. Voluntary compliance to the Property Standards and Maintenance By-laws ensure a cleaner and healthier community for all. Identification of any property in non-compliance will initiate a response from the City indicating the necessary correction or course of action and a time frame to ensure completion.**

**Please ensure items such as derelict vehicles, appliances, mattresses, broken toys or inoperable equipment and especially yard and house waste etc. are hauled to the landfill, picked up or brought to an appropriate scrap yard or scrap bin. In doing so please ensure all hauled loads are secure during transportation.**

**Be proud of your Community and respectful of your neighborhood and the environment we all share!**

**For further information, please contact the Property Standards/Building and Planning Department at 223-1140 or by email at [pskillen@dryden.ca](mailto:pskillen@dryden.ca)**
