AgriTech North and 3 Points in Space Media are working to conduct a drone flight of fresh produce from Government Dock on July 1, 2022 during the Canada Day celebration. We wish to discuss this potential event with the Committee of the Whole so that we might field questions and concerns, while also fully explaining our intended flight path to Wabigoon Lake, what the event will look like, and how we might want to answer questions from the public. We are very excited by the prospect of resolving food insecurity in part by breaking down distribution barriers, but understand that new technology like drones comes with concerns, and we want to be sure to approach this subject matter directly during the committee of the whole meeting.
- **Will you require any of the following for your presentation?**
Other (please explain)
